ALCprecision is committed to quality, efficiency, and precision in medical technology – enhancing lives through innovative solutions.SM

We make complex engineered products and assemblies for medical applications. Our focus in miniature and micro technology allows us to provide precision solutions with proven results.

Orthopedic
Implants &
Instruments

Ophthalmology

Endoscopy

Arthroscopy

Neurology

Drug Delivery
Systems

Surgical
Instruments

Dental

Cardiology

From design and engineering to prototyping and production, we create some of the most innovative and precise components and assemblies for Medical Technology:

- Arthroscopy
- Cardiology
- Dental
- Endoscopy
- Neurology
- Ophthalmology
- Orthopedics
- Drug Delivery

1 Complete engineering support - concept to process optimization

Count on ALCprecision for your next critical medical component, device or instrument.

A full suite of technical capabilities is at your disposal:

- High Precision Machining – Miniature and Complex
- CNC Milling Centers, Swiss Single- and Multi-Axis Turning
- Anodizing, Polishing, Marking, and Color Coding
- Automated, Robotic Assembly, and Cell Manufacturing
- Clean Room Packaging
- Custom Molding Services: Ceramic, Plastic, and MIM
- Laser Welding, Cutting, Etching, Drilling, and Marking

2 Quality management systems that set us apart

Certified to 13485 our Quality Management System ensures that our customers receive products to the highest standards using process validation, capability studies and FMEA.

3 Lean manufacturing practices that save time and money

We hone our manufacturing processes and find efficiencies through continuous improvement, Six Sigma, value stream and engineering analysis.

The ALCprecision Promise

We welcome complex challenges and always seek to deliver products of integrity that are defect free, on time, and within budget. Let us precision-fit a solution for your unique product needs.

What can we design and build for you?
